

# *RCMS • IGER Seminar*

## **Prof. Stephen F. Lincoln**

University of Adelaide, Australia

## **"Cyclodextrin Supramolecular Chemistry"**

Stephen Lincoln is a professor in the School of Chemistry and Physics of University of Adelaide, Australia. (DSc(Hons), PhD, DSc, Fellow of the Royal Society of Chemistry, Fellow of the Royal Australian Chemical Institute)

He has research collaborations with China, Japan and the United States. He has over 300 publications in scientific journals. In his latest prize-winning book: "Challenged Earth: An Overview of Humanity's Stewardship of Earth" he discusses population, water, food, biotechnology, health, energy, climate change and the ozone layer. He has received medals and awards from the Royal Australian Chemical Institute and UNESCO.

**Thu. 4th July 15:00–16:00**

**Noyori Materials Science Laboratory 2F, Chemistry Gallery**
